A NEW AWNING.—A new awning has just been put up at Fred Sibila & Co. and several other places in this city, by Mr. W. M. Ater. It is ahead of anything of the kind we have ever seen, being protected from the weather when rolled up, and can be easily adjusted, rolled and unrolled. It works like a charm, and we advise all who are interested to examine this awning. 361-17

A pleasant time is anticipated and all are cordially invited to attend and aid in making this the largest gathering of the kind ever held in this vicinity. In the sum total we can conclude that we have been most gloriously blessed with bountiful crops the present season, for which we should be truly thankful and exceeding glad, and nothing is more appropriate than for farmers, villagers, laborers, and all others to unite in a happy reunion for a season of congratulation and social merry making.

We are informed that Mrs. Taft, of Mansfield, formerly of this city, is expecting to give a concert, assisted by Prof. Pearson of Boston and other fine musical talent, at Massillon shortly. Mrs. Taft while with us ranked among our finest singers, and since then we learn that she has given music but special attention, and for the past year has been taking instruction under the celebrated Signor Barili, of Philadelphia, brother of the world renowned Adelina and Carlotta Patti. We hope the information to be true and if so when she favors us there will be a large turnout as no doubt it will be entertaining and a treat to all who hear her.

Camp meeting commenced at Canton yesterday, and is to hold forth some ten days or two weeks. Some new features will be inaugurated at this meeting, as the management intend charging an admission fee to the grounds. Family tickets will be sold at reduced rates. It is not stated whether the fat woman, snakes, monkeys, organ grinders, &c., will have a place on the ground or not. To charge \$7 for a family to be permitted to go to a religious meeting is something new in Methodism, and looks like fraud.

CHINA AND THE UNITED STATES.—American literature is growing with such surprising rapidity, it is impossible for any but a literary man to keep pace with its progress, and it is only occasionally that we can give the current issues of the press sufficient to warrant a review that will prove valuable to our readers; but we find in "The Oldest and the Newest Empire, China and the United States," by William Speer, D. D., so much that is germane to the mooted questions of the hour, we are constrained to present a brief resume of its merits to our readers.

Dr. Speer was a missionary at Canton from 1845 to 1852, and for the last eighteen years has been engaged in preaching the gospel in their own language to the Chinese in California; he is therefore prepared to treat his subject fairly, understandingly and exhaustively. The book is largely made up of materials gathered by the writer in his intercourse with the Chinese, under circumstances calculated to exhibit the most favorable points of their character, and carefully and practically examines the relations of "China and the United States," the advantages of increasing political and commercial intimacy, the benefits to be derived from the introduction of the Chinese into the various departments of labor in this country, and the duties incumbent on the citizens of the United States in regard to these new members of the national family. In addition, there are presented a summary account of the Chinese at home, and a history of their empire, their manners, arts and institutions, taken from the most authentic sources, and with corrections of the mistakes into and misapprehensions into which compilers not well acquainted with the Chinese have fallen. A familiar intercourse of twenty-four years with the Chinese has rendered the Rev. Dr. Speer abundantly qualified to convey the most accurate information on the subjects treated in this volume, which should be carefully read by all who desire to understand thoroughly the capacities of the Chinese and their probable influence upon the future of the United States.

It is attractively illustrated by a large number of engravings, which add materially to its interest as a book for the family. Beautifully printed and well bound the demand for it will unquestionably be large. It is published by the National Publishing Company, Cincinnati, who sell it through canvassing agents exclusively.

There will be regular services at the Presbyterian church on next Sabbath the 28th inst.

**SUNDAY SCHOOL NOTICE.**—A Sunday School will be organized at the Christian Church, on Hill street, Sunday, August 28, at 2:30 P. M. Those interested are respectfully invited to be present.

We call attention to change of business hours of Dr. Metz. He desires us to say that he wishes not to do business from 12 to 3 P. M., only in cases of extreme necessity.

In addition to the improvements made by Mr. Jas. Barry, as noted last week, he is also improving the grounds about his house, having recently put up a fine new fountain, which is ornamental, and beautiful, and reflects credit upon the manufacturers, Warhurst & Co., of this city.

In consequence of the illness of Mr. Frost, editor of this paper, for the past few weeks, we have labored under peculiar disadvantages in presenting the INDEPENDENT to our friends and patrons. But we are pleased to learn that Mr. Frost is on the mend, and hope he will ere long be able to resume his editorial duties, when we trust the fates will let up on us a little, and we will be able to come to time. What can't be cured must be endured, although the pill is bitter.

**PERSONAL.**—W. T. Mathews, the well known artist, whose studio for the last twenty years has been on Broadway, New York, will shortly visit Massillon, and offer his professional services to those of our citizens who desire pictures. Mr. Mathews ranks high in the profession, and any subject entrusted to his pencil will be painted with artistic fidelity, and finished in exquisite taste.

Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Cancer or dry rot does not blast a tree as suddenly as a stroke of lightning, but unless it is destroyed it will certainly, and in a like manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by invigorating medicine. There is something irrepressible, something the specter of premature decay, languor, pallor, emaciation, depression of spirits, and a distaste for exertion are its ordinary symptoms, and they should be promptly met by a tonic treatment. The best invigorant and exhibitor that can be administered in a case of this kind is Hostetter's stomachic, but the stimulating principle of the preparation rouses the dormant energies of the system, and the strengthening and regulating properties give a permanent and beautiful impulse to the vital forces thus brought into play. The falling appetite is re-awakened, the process of digestion and assimilation are restored, the quality of the blood is improved, the blood is improved, the secretions become more natural, find every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. Hostetter's stomachic is a tonic, and the tonic of the bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this most wholesome of all tonics and correctives the safest and surest means of relief. It is strong to restore and powerless to injure. Such is the uniform testimony of clouds of witnesses.

Is now Seven Years Old, and "Still Lives."

Without boasting of being an origin of immense influence, we may with confidence claim that the paper is not without usefulness in the right direction; ever contending for justice on all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

**GOLDEN DISCOVERY**

This is the most thorough blood purifier yet discovered, and cures all humors from the worst scurf to a common pimple, pimples and blotches on the face, and a scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cures salt rheum, eczemas, scald head, ring worms, boils, scaly eruptions of the skin, scurf, and all eruptions and canker in the mouth and stomach. It is a pure medical extract of native roots and plants, combining in harmony nature's most sovereign curative properties, which God has insinuated into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid,

fears, or any of the affection's symptomatic, of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent headache, mouth tastes bitter in the morning, nervous appetite and languor attend you, you are suffering from liver or biliousness. In many cases of liver complaint only a part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal as a safe and quick cure, leaving the system purified and invigorated. The cure of habitual constipation of the bowels is a never failing remedy, and those who have tried it for the purpose are loud in its praise. In blood-cholera, infant and lung distemper, it has produced a permanent and reliable cure, where other medicines had failed. Sold by druggists at \$1 per bottle. Prepared at the Chemical Laboratory of R. V. PIERCE, M. D. Buffalo, N. Y. 63-3m
